IT'S NOT "HEALTHY, HAPPY, AND HOT!" IT'S DEADLY! Miriam Grossman, M.D. Says "Shame On You United Nations!"

New York, NY – Feb. 29... Child and adolescent psychiatrist Miriam Grossman, M.D., asks the United Nations at their annual Commission on the Status of Women meeting to stop supporting, encouraging, and distributing Planned Parenthood's deadly advice.

Planned Parenthood publishes and distributes *HEALTHY, HAPPY, AND HOT: A young person's guide to their RIGHTS, SEXUALITY, and LIVING WITH HIV*. It is a happy celebration about having HIV. This publication encourages "sexual pleasure" and instructs young people living with HIV that they "have the right to decide if, when, and how to disclose their HIV status."

Other advice includes:

- * "Young people living with HIV have the right to sexual pleasure."
- * "Just because you have HIV, doesn't mean all of the responsibility is on you."
- * "Some people have sex when they have been drinking alcohol or using drugs. This is your choice."
- * "Sometimes people choose not to have safer sex. If this is something you and your partner agree to, then it is your choice."

Dr. Grossman explains, "Planned Parenthood's advice fuels the HIV/AIDS epidemic and causes unnecessary deaths! Innocent people will lose their lives. **Shame on you United Nations for distributing Healthy, Happy, and Hot!**"

Dr. Grossman is the foremost international expert on the dangers of sexuality education. She wrote a critical analysis of New York City's Sex Education in August 2011. Dr. Grossman is the author of, *You're Teaching My Child WHAT?
